REPORTS from South Carolina are to the effect that the Democrats are resuming their bull-dogging policy in that state in the present political campaign, terrorizing the Republicans by means of the shotgun argument, and breaking up all attempts to hold Republican meetings.

PHOCION HOWARD, in attempting to prove that Malden Jones is really and truly a Democrat, proudly makes this statement: That on March 9, 1872, "Senator Jones introduced a Joint Resolution demanding of Congress the repeal of the clause on 'slaves'." Which is to say that because Mr. Jones believes in free whisky he is therefore a Simon pure Democrat.

We have nearly \$700,000,000 paper money in circulation, and the entire volume has already reached a practical equality with coin, the difference being only the minor fraction of a cent on the dollar. Will the country listen to the demands of the irredeemable paper advocates, abandon what has already been accomplished, and return again to the experiences of the past?

THE honor of originating the greenback for its great and patriotic services belongs to the Republican party, and to that party will belong the still greater honor of making every note as good as the coin itself. All that the Democratic party have now to say in its favor is complimentary to the wisdom and judgment of those by whom it was originated against Democratic resistance.

THE way for friends of honest money and the national honor to go into the pending contest, in order to achieve success, is that which was adopted by our Standard in Ohio. General Garfield gave the secret of the great victory in that state in a brief speech at Cleveland, the other evening. "All of our men everywhere," he said, "have made a superb fight, a fight with broad sword—with no cotton around the blade." That is the way the fight must be made everywhere.

THE Chicago Evening Journal, speaking of the report that Gov. Collam will be a candidate for United States Senator, says: "Governor Collam is not a candidate for United States Senator. Governor Collam wisely reasons that when the people of the state of Illinois elected him Governor, they conferred upon him the very highest honor in their gift, and that the Government should neither be made a stepping-stone, nor be deemed secondary to any other office that can be bestowed upon a man either by the people or the legislature." Coming as this probably does from the gentleman who would succeed Governor Collam as Governor if the latter should retire, it may be set down as "spoken by authority."

SENATOR BLAINE put it sharply when he said: "The question is not whether the people of the United States shall go forward to reorganization, but whether, having actually reached such a point, they will by positive legislation go backward and adopt irredeemable paper currency."

THE RAILROAD companies talk of a train, headed by one locomotive from Clark's Ferry to Shobery, Pa., over the Susquehanna Division of the Northern Central Railway, consisting of 183 empty eight-wheeled cars, one loaded car, one dead wagon, and 186 passengers. The train was one and one-eighth miles long, or 6,900 feet, and weighed 3,600,000 lbs., and traveled thirty-one miles, exclusive of stoppages, in three hours and twenty minutes.

"THE FRIEND OF THE POOR MAN."

The campaign of Malden Jones in this district, both *now* his own *now* and that of his friends, is the *big* issue of the campaign. One of the chief efforts made in Malden's behalf by his faithful squire, Phocion Howard, is that he is "the friend of the poor man." Let us see whether this is true. His votes in the state cause *fairly* contradict this assertion. He voted for the Landlord and Tenant Act, which the provisions of which no renter can haul a load of corn to town and sell it to buy medicine, groceries or clothing for his sick or destitute family, without the express permission of his landlord; in case he does, the landlord not only can take possession of the crop and sell it before the rent is due, but also take any of his other chattels not exempt from execution and sell them to make up for what rent the crop at forced sale failed to pay! During the session of 1877, several Republicans introduced bills providing for the rigid examination of all banks (savings banks) organized under the laws of the state, in order to protect depositors. Jones added the majority to place John C. Haines, president of the Fidelity Savings Bank, Chicago, as chairman of the senate committee on banks and banking. Mr. Haines was the leader of the unholy which called the majority, and he used his position to further his own ends by placing all the bills for the protection of depositors in his pocket, where they have ever since slept the sleep of the dead, and the session closed without legislation on the subject. It was known to Jones that Mr. Haines' Fidelity Savings Bank was on the ragged edge of bankruptcy, yet he helped form the coalition which made possible the election of Haines as chairman of the committee on banks and banking, and Jones worked and voted with the majority against any law to examine banks and save the poor depositors from the fearful crisis that he knew must come. His voice was at no time in favor of any measure to protect the people from fearful losses by the collapse of banks. The result was that Haines' Fidelity Savings Bank, Sydney Myers' bank, and all the banks of that sort in the state continued operations without inspection, lied about and concealed their conditions from the depositors, and continued to take the people's money to the very last hour of their existence, and when they exploded the depositors lost almost every cent, amounting to millions of dollars!

EXPIRED FOR THE WANT OF USE

The Democratic Congressional Committee, with its headquarters in Washington, has vacated its office and shut up shop, Democratic literature being no longer of any use in the campaign. The head and body of the Democratic party—the Southern Democracy—have no use whatever for political documents. The importation of knowledge in political affairs and on governmental subjects, the cultivation of the intelligence and appeals to the understanding of the people are not the elements of a Southern Democratic canvass. They are not the weapons with which Democratic victories are won in the South. No such instruments as those procured the South.

The Southern Democrats are quite above and beyond such carnal things. They may do for the North, but South American civilization has higher, nobler, grander, and more effectual means of carrying an election than any such trial as a Democratic Congressional Committee can send them from Washington, at least for the present, and until the Democracy get the key and control of the government arsenals. Rifles, shotguns, whips, halters, red jackets, masks, and the like are the implements with which political victories are won by the Democratic masters. And since the destruction of the Democracy down East by the Nationals on the 1st and by the Reds in Massachusetts, and the demoralization of the party everywhere at the North, the tail of the Southern Democracy is so much worn and docked that nobody cares the least thing for Democratic documents. The committee's occupation is gone, and the committee is gone. Exit Blairstown.

FREE INVESTMENT \$1,113.25 Profit.
H. H. Webb of Phila., Pa., writes Aug. 16, 1878: "Messrs. LAWRENCE & CO. Yours containing remittance of \$1,113.25 on profits on my 300 shares, is received. Accept my thanks, as I am very well satisfied. As you request, you may use this letter. I would recommend every one who feels disposed to speculate to send for your circular." The new way of operating in stocks by the COMBINATION SYSTEM enables people with large or small capital to reap similar benefits. By this excellent plan, the orders of thousands of customers from city and country are filled in a few hours. The following is a BRIEF EXPLANATION OF A BRIEF INDIVIDUAL ACCOUNT. Each member of the Combination receives all the advantages of the largest capital united with experience. An investment of \$10 pays \$9, or 5 per cent, on the stock during the month, \$100 makes \$90 profit, or 7 per cent, and so on as the market moves. Messrs. Lawrence & Co. have now circular explaining everything (Circulars and stock free). All kinds of stocks and Bonds wanted. New Government loan supplied on best terms. Best references furnished. THE RAG BABY QUARANTINED.

In the beginning was the Democracy and the nigger. And the Democracy tarred and feathered the nigger, while the nigger spattered the Democracy with the blood of the bee. The Democracy said: Let the nigger be forever a slave, and let the peculiar institution spread throughout the land. But the nigger said: Let the Democracy be divided against itself; let it become an outcast and wander upon the earth seeking for the spoils and not finding them. And it was.

Now these are the generations of the nigger: The nigger beat the Republican party; and the Republican party beat the greenback. And the greenback was made fat money and beat the fat money (small), which is the rag-baby. Then the parent of the greenback became disgusted with its misbegotten progeny, and turned against the rag-baby and cast it forth upon the cold and cheerless world. But the Democracy came that way and beheld the rag-baby and took a fancy to it, saying: This ill-begotten brat shall help us to recover the spoils. Go to! we will be its wet nurse. So the Democracy took the rag-baby to its bosom and became the wet nurse. And the rag-baby grew amazingly, and waxed strong, and proposed to lick both its parent and its wet-nurse.

For a long time the country has been in a state of doubt and misgiving as to the outcome of the triangular contest. But doubt prevails no longer. The political rag-baby has received a blow in the house of its friends from which it will not recover.—Chicago Times.

"DIVORCE OF BANK AND STATE."

"Cheap money, fat money," is the cry of the demagogue. "Cheap money" is the cry of the intriguing capitalist, the harvest of the Shylock, and the ruin of the laborer. As paper money cheapens gold advances, and with it all the prices of the necessities of life—shelter, food and raiment—but not the wages of labor! Hence the possessor of gold—the capitalist employing labor or investing in the products of the farm—buys with his gold cheap money—"fat money," "Irredeemable rage"—at fifty cents on the dollar, and even less, with which he pays dollar for dollar for the labor of the mechanic and the produce of the farm! Thus "cheap money" enables the wily capitalist to rob both the mechanic and farmer—the mechanic of one-half of the profits of his labor and the farmer of his cattle and grain! The cheaper the money the greater the profits of capital and less the rewards of labor! Hence the cry of "cheap money," "fat money," simply means the robbery and ruin of labor.

MARD TIMES PLAYED OUT.

BEATRICE, NEB., October 14.—Senator Paddock has received a telegram from Secretary Schurz saying that he has direct and satisfactory information that the Red Cloud and Spotted Tail Indians are settled on reservations chosen by them and there is no occasion for alarm from their movements.

CHEYENNE, W. T. October 14.—It is established beyond a doubt that the total number of citizens killed near the State line, by the Cheyenne Indians who crossed the U. P. Railroad on October 4, was 43—18 on the Sappa river, 15 on the Beaver, 1 on Prairie Creek and 5 near the Republican River. The Indians carried away a large number of fine California horses from Wilson's ranch, Hitchcock county, Neb.

CAMP ROBINSON, N. M., October 14.—Our camp was aroused at midnight by several men living at Old Red Cloud agency, one mile from here riding into camp and stating that a party of Cheyennes had run away with all their stock. Cavalry went out to the scene of the plundered nothing could be ascertained than that the Indians after running off, stock made for Crow Butte's. The same party also reported that the Cheyennes were all day yesterday seen on Crow Butte.

DEADWOOD, D. T. October 14.—A severe fight occurred this afternoon at Brigand Camp, 15 miles south of this city, between the Sheriff and his posse and two road agents, in which one of the latter, Tom Price, was four times wounded, twice fatally, and is now in the hands of the authorities. His companion escaped. The Sheriff is still in pursuit with a prospect of recovering the treasure taken from a coach September 26. Numerous Indian rumors are about but nothing authentic.

BURLINGTON, IOWA, October 14.—The Burlington Gazette, (Democrat), has sued the Madison Democrat (Democrat), for \$20,000 damages for libel, growing out of a campaign Democrat charging that the Gazette sold out to Greenbackers and defeated Hobbs, Democratic Congressional nominee. Last week an elderly stranger came to Burlington and advertised in the papers that he was about to open a wholesale clothing store under the name of E. C. Mills & Co. He deposited three drafts in the First National Bank for \$2,000. Saturday he drew out \$320. The bank telephoned to Chicago and learned that the drafts were bogus. He had a few hours' start, but officers got on his trail and captured him with the money at Hamilton, Ill., and brought him back this morning. He admits that Mills is not his real name, but refused to give any other, is over fifty years old, and says he served as surgeon in the Mexican war.

WATSON, ARK., Oct. 14.—John Poston was to-day sentenced in the United States Court to be hanged on the 20th of December next. The annals of crime do not present a more diabolical and wicked sin than that for which John Poston has been tried, convicted and now sentenced to suffer death. He is a half breed Creek Indian. His victim were John Ingley, a white man, and his wife. In October, 1877, Poston became incensed at Ingley for his refusal to give him tobacco. He went off, borrowed a revolver, and came back to Ingley's house, called Ingley out to the door and shot him down. He then placed his revolver to Mrs. Ingley's breast and shot her, killing both instantly. The Ingleys had one child, only twenty months old, who was left alone with the dead bodies of his parents, and the house being some distance off the road the murder was not discovered until eleven days after it was perpetrated. The child was then on the very verge of the grave from starvation, and the dogs had almost completely devoured the woman and had also eaten the flesh from the face of Ingley. When asked by the Judge if he had anything to say why the sentence of the law should not be passed upon him, he replied that he had nothing at all to say. He seemed perfectly stoical, taking his sentence with an air of indifference.

MC CORMICK CITY, Oct. 14.—Two deaths and eight new cases. The outlook is more cheerful.

WASHINGTON, D. C., October 14.—Letters received here from South Carolina represent that the Democrats continue to refuse to allow Negroes to be held at their meetings with their opponents. At the same time the Democrats absolutely refuse to divide the time at their meetings with the Republicans. The Democrats enforce their demand for division of time with the Republicans by aid of the State militia companies armed with guns furnished by the United States government, and the forces of Wade Hampton and Senator Butler. All the accounts agree that the Democrats are trying to terrorize the Republicans, and that Wade Hampton is doing nothing to protect the latter in their rights. The district represented by Congressmen Simms and the Negroes have a body of men armed to ride to every point where a Republican meeting is called, and demand a division of time, and when this is refused they boldly break the meeting up.

GRAND SOLDIERS' REUNION.

Business Meetings on Wednesday—Grand Procession, and Speeches on Thursday at the Fair Grounds.

The Macon county Soldiers' Reunion, for which the veterans of the county and our people generally have been preparing for several weeks, is at last upon us, and to-morrow the hosts will gather for the grand convocation. The meeting will embrace the heroes of all the wars since the revolution—the Mexican war veterans, those of the war of 1812, together with those of the Indian wars, are combined in one association, and will meet on Wednesday at the court-house, where an address of welcome will be delivered by Senator Oglesby, if he can be present; otherwise, by Judge Gallagher. This association will then attend to the transaction of such business as their constitution provides for at the annual meeting of the society. It is probable that some of them will go into camp at the fair ground, with the veterans of the late war, on Wednesday night. On Thursday they will join the general procession, as per published programme, and proceed to the fair ground, where the address will be delivered and the general exercises of the reunion will take place. There is so much uncertainty as to who the speakers will be that no announcements will be made to-day. Some distinguished gentlemen who were expected, have notified the committee of their inability to attend, but it is certain that there will be several eminent soldiers and orators here, so that there will be no lack of speakers on the occasion.

The Macon county association of the veterans of the late war will hold their business meeting on Wednesday, for the choice of permanent officers, and for the transaction of such other business as may be deemed necessary. It is the intention of the veterans to camp at the fair ground over Wednesday night. The soldiers are to be rationed by our citizens, and we understand that a liberal spirit has been shown in response to the call made for provisions.

On Thursday forenoon at ten o'clock, the grand procession will form as follows: The column will be formed on Wood and Water streets, moving north on Water to South Park street, east on South Park to Franklin, north on Franklin to North street, east on North street to Jackson, north on Jackson to Eldorado, west on Eldorado to Water, south on Water to Main, west on East Main to Old Square, north on North Main to Prairie, west on Prairie to Edward, north to Eldorado, and west on Eldorado to the fair grounds.
